Dear Hiring Manager,

I am a third-year Computer Science student at Birla Institute of Technology, Mesra, with expertise in C++, HTML, CSS, JavaScript, Java, Node.js, MongoDB, and MySQL. My coursework and projects have equipped me with a strong foundation in software development principles and methodologies. I thrive in collaborative environments, possessing strong communication and teamwork skills.

Working at IndiGo would provide me with valuable real-world experience and the opportunity to contribute to innovative projects. I am particularly attracted to Infosys's reputation for talent development and growth opportunities.

I am enthusiastic about contributing to Infosys's success and eager to discuss how my skills align with the internship role. Thank you for considering my application.

Sincerely,

Tanya Kumari
